Prestige Brands focuses on product innovation and quality in the over-the-counter healthcare and household cleaning categories to better improve the lives of our customers and their world. For generations, Prestige's trusted brands have helped consumers care for themselves and their loved ones. It is their mission to preserve this trust by continuing to provide products stewarded with their needs in mind

Key Challenges

- Enterprise visibility
- Product costing
- One version of the truth
- Complex EDI environment
- Contract manufacturer integration

Objectives

- Implement standard processes / procedures across the organization.
- Solid foundation to accommodate global acquisition strategy.

Implementation Highlights

- Project scope included core ERP, APO and Validation
- Implementation included significant EDI processing, several interfaces and FDA Validation.
- Acquired DenTek Holdings, a leader in oral care products, in Nov 2015. Oxygen, a united VARs member, provided implementation services of the SAP system in Australia, along with training and support.

Why SAP

- The best integrated solution that can be used anytime and anywhere, across our global enterprise
- Preconfigured solution driven by ASAP, - SAP's powerful implementation methodology
- SAP provides organizations like Prestige Brands capability to implement the same process, across their world-wide operation.

Benefits

- Improved operational visibility across all facilities
- Solid foundation for future initiatives which will improve operational effectiveness & control
- Standardized business processes across the organization

UXC oxygen A member of united VARs, which is an SAP Platinum Partner.
