“ Sirtex is an Australian based global healthcare company working to improve outcomes for people with cancer. Its lead product is a targeted radiation therapy known as SIR-Spheres® Y-90 resin microspheres. It is available in over 40 countries, within over 1,000 certified hospitals to treat patients with inoperable liver cancer. This product has approval from the US FDA, the EU, CE, Mark and Australia TGA. ”

Sirtex Medical

Project:

- Integration – Compliance – Validation - Scalability
- SAP Business All-in-One with EzLife Science
- 100+ Users
- Milestones: Phased Implementation
 - Phase 1 - 30 Weeks; Go-Live June 2015
 - Global Finance & Purchasing
 - Phase 2 – 45 Weeks; Go Live September 2016
 - Global Manufacturing across three Sites

Main Challenges

- Global organization (N. Sydney, NSW, Australia, USA; Singapore, Germany)
- Limited Access to end-users (through four business analysts).
- Tight lead-times between planning and procurement (1 day), manufacturing/shipping/patient treatment (1-2 days)

Customer Benefits

- EBR guides the end-users and monitor adherence to regulations through employee qualification check, controlled data entry and validation, and single/dual digital signatures for regular inspections and deviations.
- Readiness for regulatory agency audits through EBRs.
